

For Immediate Release

1st United Door Technologies Partners with ATL to Offer Breezy Living Product

A new and innovative garage door product

Tempe, AZ, November 17, 2010 —1st United Door Technologies has partnered with Arrow Tru-Line to offer its dealer network the new and innovative **Breezy Living Screen Solutions** product line. It provides an exciting new product that will appeal to a broad range of homeowners, allowing them to have the garage door open, while keeping bugs and debris out.

Far and away, the **Breezy Living Screen Solution** is one of the hottest new products to hit the garage door industry. It's an easy-to-use, affordable and fully retractable screen unit that provides comfortable outdoor living space with a unique sliding pass door that lets people enter or leave the garage without opening the entire door. The door avoids the high cost of electric retractable doors and eliminates the problems of the floor track on sliding doors.

This will additionally provide their dealers with a great value-add product to increase their profits!

For ten years, 1st United Door Technologies has offered a wide range product line of residential and commercial garage doors and this product compliments the quality and workmanship put into every product they produce.
