

For Immediate Release

A NEW CONTRACTOR SERIES GARAGE DOOR THAT FITS ANY BUDGET

The steel garage door that fits any budget

Tempe, AZ, May 7, 2010 — Constructed using the best in modern manufacturing techniques, 1st United Door Technologies introduces a new series of cost-effective steel garage doors that fit any budget yet manufactured for strength and longevity. The Universal Contractor Series offers garage doors produced with exceptional quality and workmanship, using only the finest manufacturing components.

The door offers embossed wood grain texture finish accented by a traditional raised panel design with an easy-to-maintain, baked-on polyester basic white paint only. Composed of heavy-duty, hot dipped galvanized steel, the garage doors are reinforced for strength and durability. These garage doors set the standard when it comes to beauty and durability.

The Contractors Series garage door, at the most affordable price for a steel garage door, will certainly gain the favor of homeowners, builders and architects for its price, strength, durability, and gracious design.

1st United Door Technologies, founded in 2000, owns and operates its main offices and manufacturing facility in Tempe, Arizona and has four distribution centers located throughout the Southern California region.
