

For Immediate Release

1st United Doors Technologies Honored in Top 100 Products List

Tempe, AZ, November 15, 2008 —Residential Design & Build Magazine has designated 1st United Door Technologies' Steelite[®] product line as one of the "Top 100 Products of the Year" based on the magazine's readership response in their November/December issue.

"In this issue we look at things through a builder's eye," says Editor Rob Heselbarth, "the building materials, the craftsmanship, the products--it proves to be very interesting. The products chosen are those builders come to rely on and use regularly on the job."

Steelite[®] is an alternative design for the price conscience consumer who understands a garage door's impact on the curb appeal of their home. four unique and exclusive design alternatives and great value are sure to delight the most discriminating homeowner. Optional designer window treatments and decorative hardware are also available.

Steelite[®] garage doors represents 1st United Door Technologies' innovation and forward-thinking ideas when it comes to manufacturing garage doors.

Residential Design & Build Magazine, dedicated to both the residential design and build market, features articles about the latest design and products for the building industry, industry news, project showcases and design and business trends.
