Premium Series 8360 DC Chain Drive Garage Door Opener Enabled By MyQ™ Technology

## The LiftMaster® Premium Series 8360 Chain Drive Garage Door Opener Enabled by MyQ™ Technology

One of two new models of LiftMaster's next generation of residential garage openers.

*\*Only new model in the Premium series; additional models available in 2012, first Premium Series to come standard with patented Battery Backup system.*

Setting the standard for home and garage access, this feature-rich, industrial-strength chain drive model includes:

- Auto force and electronic limits, means easy install, less maintenance and reduced call backs
- Security+® 2.0 radio system with multi-frequencies for near-zero interference
- Timer-to-Close feature with UL325 compliant alert-to-close warning system
- Energy efficient operation, consuming 75 percent less power in standby mode
- Whole garage lighting with dual side 200-watt CFL bulb-compatible design
- Lifetime motor warranty

Accessories included with unit:

- Motion-Detecting Control Panel (881LM)
- 3-Button Standard Remote Control (893LM)

Available to dealers: August 2011

- Introducing the new intelligence in garage door openers, the industrial-strength chain drive system provides steady performance and lifting power.
- Innovative chain drive model features built-in, easy to use MyQ technology, taking freedom and convenience to a new level.
- High-performing, durable and reliable, this new addition to the LiftMaster family of new products comes standard with battery backup system – a Premium Series first!
- Equipped with a new, advanced logic board with two separate radios, the 8360 model expands beyond only opening and closing the garage door.
