

LiftMaster®

Elite Series™ 8550 DC Belt Drive Garage Door Opener Enabled by MyQ™ Technology

The LiftMaster® Elite Series™ 8550 Belt Drive Garage Door Opener Enabled by MyQ™ Technology

One of two new models of LiftMaster's next generation of residential garage openers.

**Only new model in the Elite Series; additional models available in 2012.*

Setting the standard for home and garage access, this feature-rich model includes:

- Auto force and electronic limits, means easy install, less maintenance and reduced call backs
- Security+® 2.0 radio system with multi-frequencies for near-zero interference
- Timer-to-Close feature with UL325 compliant alert-to-close warning system
- Energy efficient operation consumes up to 75 percent less power in standby mode
- Whole garage lighting with dual side 200-watt CFL bulb-compatible design
- Lifetime motor warranty

Accessories included with unit:

- Smart Control Panel® (880LM)
- 3-Button Premium Remote (893MAX)

Available to dealers: August 2011

- Introducing the new intelligence in garage door openers, the ultra-quiet 8550 model features built-in, easy to use MyQ™ technology, taking freedom and convenience to a new level.
- High-performing model comes standard with Battery Backup system, a new standard in all future openers by LiftMaster.
- Equipped with a new, advanced logic board with two separate radios, helping to expand the garage door opener beyond only opening and closing the garage door.
- Superior radio bandwidth and innovative two-way communication systems are truly raising expectations among dealers and homeowners alike.
