

LiftMaster®

MyQ™ Enabled Accessory: Remote Light Control (Model 825)

- Homeowners never have to enter a dark house again.
- Light up their arrival with remote light controls as they pull into the driveway using the remote control that also opens the garage door.
- Provides homeowners with an added layer of freedom and control as well as security of their homes.
- If coupled with the MyQ™ Internet Gateway accessory, the Remote Light Control can monitor and control lights from anywhere using the same smartphone app or website from a computer.

The LiftMaster® Remote Light Control Model 825LM

Compatible *only* with the new generation of LiftMaster residential garage door openers enabled by MyQ™ Technology.

- Elite Series™ Belt Drive Unit (8550)
- Premium Series Chain Drive Unit (8360)

- Light fixtures and lamps plugged into the Remote Light Control adaptor take commands from garage door opener unit or other MyQ-enabled devices using built-in two-way communication system.
- Works three different ways:
 1. Program directly to LiftMaster garage door opener unit enabled by MyQ Technology
 2. Program to a Security+® 2.0 remote control
 3. Program to a MyQ Internet Gateway accessory to remote access to lights using a smartphone or computer

Available to dealers: August 2011
