DC CHAIN DRIVE  
GARAGE DOOR OPENER

## The Premium Series Advances With Innovative Technology And A Battery Backup Feature

Our 8360 garage door opener is the first in the Premium Series to include our integrated battery backup feature, which provides the reliability and safety you demand. Also incorporated into this chain drive opener is the innovative MyQ™ technology, bringing you more freedom and convenience than ever before.

BATTERY  
BACKUP

## Performance Benefits

- Battery Backup system ensures operation, even when the power is out
- Energy-efficient operation consumes up to 75% less power in standby mode
- Industrial-strength chain drive system provides steady performance and lifting power
- Lifetime motor warranty

## Accessories Included

### Motion-Detecting Control Panel (886LM)

Activates the garage lights as soon as you walk in, so there's no more fumbling to get in the car or grab something from the garage.

- Programming accessories is fast and easy
- Optional hands-free light shutoff with adjustable timer

### 3-Button Standard Remote Control (893LM)

Control up to three garage doors or MyQ™ lighting accessories with this powerful transmitter.

- Multi-frequency Security+® 2.0 significantly reduces interference

At LiftMaster®, safety is a major part of our mission. It's our commitment to you and, quite simply, the way we produce products every day. Our LiftMaster® products are designed to move the largest door in your home, safely, securely and by always putting safety first.

# 8360 DC CHAIN DRIVE GARAGE DOOR OPENER

## Unmatched Communication, Safety & Security

The 8360 is manufactured with built-in MyQ™ technology, which enables you to tap into even more features for maximum confidence, communication and compatibility.

- Auto force and electronic limits mean the garage door adapts to weather and changing environmental conditions, which means less maintenance for you.
- The new radio control uses three different frequency bands simultaneously to defeat almost any source of interference and increase the range of your opener.
- The Protector System® safety sensors automatically reverse the door if the infrared beams detect any obstruction. For added convenience, the lights turn on at the same time so you can more easily see what might be in the way.
- Alert-2-Close warning system provides UL325-compliant audible and visual warnings that the garage door is about to close when using features like Timer-to-Close or a remote closing feature.
- Patented technology detects when a door spring breaks during operation and triggers the motor to fully open the door for safety.
- Patented PosiLock® system ensures the door remains securely locked when it is closed.

### LiftMaster® Accessories: The Freedom to Enjoy Your Life

Advanced technology makes your home safer and more responsive to how you live.

#### Garage Door Monitor (Model 829LM)

This innovative monitor lets you check and close the garage door from any room in the house.

#### LiftMaster® Internet Gateway (Model 828LM)

LiftMaster's revolutionary new accessory features MyQ™ technology that connects to the Internet and allows you to monitor and operate your garage door from anywhere in the world via your smartphone or computer.

#### Remote Light Control (Model 825LM)

Operate any lamp from your driveway with your garage door opener remote or from your smartphone when connected through the LiftMaster® Internet Gateway.

#### Remote Light Switch (Model 823LM)

Replace any single light switch to be able to control your home, garage or yard lights remotely when connected through the LiftMaster® Internet Gateway.

#### Standard Wireless Keyless Entry (Model 877LM)

Kids coming home from school? Out for a jog? Open or close the garage door instantly with a private 4-digit code. Mounts inconspicuously outside garage for convenient access.
