DC BELT DRIVE  
GARAGE DOOR OPENER

## Ingenious Garage Door Opener Technology With The Ultimate Features And Performance

Our 8550 garage door opener with integrated battery backup provides the reliability and safety you demand for your family, but now offers you much more. This innovative garage door opener features built-in, easy-to-use technology – taking freedom and convenience to a whole new level. LiftMaster's exclusive MyQ™ technology allows you to monitor and control your garage door from anywhere using a smartphone or computer.

**BATTERY  
BACKUP**

### Performance Benefits

- Battery Backup system ensures operation, even when the power is out
- Timer-to-Close feature lets you choose to have the door automatically close after a pre-programmed number of minutes
- Energy-efficient operation consumes up to 75% less power in standby mode
- Belt drive system is durable, ultra-quiet and maintenance-free
- Whole garage lighting with dual side 200-watt CFL bulb-compatible design
- Uses multiple frequencies simultaneously for near-zero interference

### Accessories Included:

#### Smart Control Panel® (880LM)

Easily program remotes and MyQ™ enabled accessories, adjust settings, or get maintenance alerts for complete management of your garage.

- Intuitive menu-driven panel gives you complete control of your garage door opener
- Use Timer-to-Close to automatically close the garage door in 1, 5 or 10 minutes. Also has a custom setting from 1-99 minutes
- Easily view temperature, time and system diagnostics
- Keep garage access system in peak working order with the Maintenance Alert System

#### 3-Button Premium Remote Control (895MAX)

- Control up to three garage door openers or devices, or MyQ™ enabled lights
- Sleek design includes backlit blue LED buttons for night operation
- Multi-frequency Security+® 2.0 eliminates interference
- Compatible with all garage door openers manufactured by LiftMaster® since January 1993

**At LiftMaster®, safety is a major part of our mission.**

It's our commitment to you and, quite simply, the way we produce products every day. Our LiftMaster® products are designed to move the largest door in your home, safely, securely and by always putting safety first.

# 8550 DC BELT DRIVE GARAGE DOOR OPENER

## Unmatched Communication, Safety & Security

The 8550 is manufactured with built-in MyQ™ technology, which enables you to tap into even more features for maximum confidence, communication and compatibility.

- Auto force and electronic limits mean the garage door adapts to weather and changing environmental conditions, which means less maintenance for you.
- The new narrowband radio uses three frequency bands simultaneously to defeat almost any source of interference and increase the range of your opener.
- The Protector System® safety sensors automatically reverse the door if the infrared beams detect any obstruction. For added convenience, the lights turn on at the same time so you can more easily see what might be in the way.
- Alert-2-Close warning system provides UL325-compliant audible and visual warnings that the garage door is about to close when using features like Timer-to-Close or a remote closing feature.
- Patented technology detects when a door spring breaks during operation and triggers the motor to fully open the door for safety.
- Patented PosiLock® system ensures the door remains securely locked when it is closed.

### LiftMaster® Accessories: The Freedom to Enjoy Your Life

Advanced technology makes your home safer and more responsive to how you live.

#### Garage Door Monitor (Model 829LM)

This innovative monitor lets you check and close the garage door from any room in the house.

#### LiftMaster® Internet Gateway (Model 828LM)

LiftMaster's revolutionary new accessory features MyQ™ technology that connects to the Internet and allows you to monitor and operate your garage door from anywhere in the world via your smartphone or computer.

#### Remote Light Control (Model 825LM)

Operate any lamp from your driveway with your garage door remote or from your smartphone when connected through the LiftMaster® Internet Gateway.

#### Remote Light Switch (Model 823LM)

Replace any single light switch to be able to control your home, garage or yard lights remotely when connected through the LiftMaster® Internet Gateway.

#### Standard Wireless Keyless Entry (Model 877LM)

Kids coming home from school? Out for a jog? Open or close the garage door instantly with a private 4-digit code. Mounts inconspicuously outside the garage for convenient access.
